NOTES TO THE INTERIM FINANCIAL INFORMATION:

For the six months ended 30th June, 2010

1. BASIS OF PREPARATION

The interim financial information have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**") and International Accounting Standard ("IAS") 34 "Interim Financial Reporting".

2. PRINCIPAL ACCOUNTING POLICIES

The interim financial information have been prepared under the historical cost basis, except for certain financial instruments which are measured at fair values.

The accounting policies used in the interim financial information are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31st December, 2009, except as described below.

In the current interim period, the Group acquired a 31.95% equity interest in a private company incorporated in Denmark and a 39.15% equity interest in a private company incorporated in the Cayman Islands, for a total consideration of RMB75,264,000. The accounting policy adopted is as follows:

Interest in associates

An associate is an entity over which the investor has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results, assets and liabilities of associates are incorporated in these interim financial information using the equity method of accounting. Under the equity method, investments in associates are carried in the condensed consolidated statement of financial position at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associates, less any identified impairment loss. When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognizing its share of future losses. An additional share of losses is provided for and a liability is recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognized at the date of acquisition is recognized as goodwill. The goodwill is included within the carrying amount of the investment and is not tested for impairment separately. Instead, the entire carrying amount of the investment is tested for impairment as a single asset. Any impairment loss recognized is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment in the associate. Any reversal of impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

Any excess of the Group's share of net fair value of the identifiable assets, liabilities and contingent liabilities over the cost acquisition, after reassessment, is recognized immediately in profit or loss.

Where a group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

In the current interim period, the Group has applied, for the first time, a number of new and revised standards, amendments and interpretations ("new and revised IFRSs").

International Financial Reporting Standards ("IFRS") 3 (Revised) "Business Combinations"

The Group applies IFRS 3 prospectively to business combinations for which the acquisition date is on or after 1st January, 2010. The requirements in IAS 27 (Revised) "Consolidated and Separate Financial Statements" in relation to accounting for changes in ownership interests in a subsidiary after control is obtained and for loss of control of a subsidiary are also applied prospectively by the Group on or after 1st January, 2010. As there was no transaction during the current interim period in which IFRS 3 (Revised) and IAS 27 (Revised) are applicable, the application of IFRS 3 (Revised), IAS 27 (Revised) and the consequential amendments to other IFRSs had no effect on the interim financial information of the Group for the current or prior accounting periods.

Results of the Group in future periods may be affected by future transactions for which IFRS 3 (Revised), IAS 27 (Revised) and the consequential amendments to the other IFRSs are applicable.

Amendment to IAS 17 "Leases"

As part of the improvements to IFRSs issued in 2009, IAS 17 "Leases" has been amended in relation to the classification of leasehold land. Before the amendment to IAS 17, the Group was required to classify leasehold land as operating leases and the Group presented the prepayment as prepaid lease payments in the consolidated statement of financial position. The amendment to IAS 17 has removed such a requirement that leasehold land must be classified as operating leases. The amendment requires that the classification of leasehold land should be based on the general principles set out in IAS 17, that is, whether or not substantially all the risks and rewards incidental to ownership of a leased asset have been transferred to the lessee. In accordance with the transitional provisions set out in the amendment to IAS 17, the Group reassessed the classification of unexpired leasehold land as at 1st January, 2010 based on information that existed at the inception of the leases. After reassessment, the Directors of the Company concluded that no reclassification was necessary.

The application of the new and revised IFRSs has had no effect on the interim financial information of the Group for the current or prior accounting periods.

The Group has not early applied the following new and revised IASs, IFRSs, amendments or interpretations ("INT") that have been issued but are not yet effective.

IFRSs (Amendments)	Improvements to IFRSs 2010[1]
IAS 24 (Revised)	Related Party Disclosures[4]
IAS 32 (Amendment)	Classification of Rights Issues[2]
IFRS 1 (Amendment)	Limited Exemption from Comparative IFRS 7 Disclosures for First-time Adopters[3]
IFRS 9	Financial Instruments[5]
IFRIC 14 (Amendment)	Prepayments of a Minimum Funding Requirement[4]
IFRIC 19	Extinguishing Financial Liabilities with Equity Instruments[3]

[1] Effective for annual periods beginning on or after 1st July, 2010 and 1st January, 2011, as appropriate.
[2] Effective for annual periods beginning on or after 1st February, 2010.
[3] Effective for annual periods beginning on or after 1st July, 2010.
[4] Effective for annual periods beginning on or after 1st January, 2011.
[5] Effective for annual periods beginning on or after 1st January, 2013.

* IFRIC represents the Interpretations developed by the IFRS Interpretations Committee.

IFRS 9 "Financial Instruments" introduces new requirements for the classification and measurement of financial assets and will be effective from 1st January, 2013, with earlier application permitted. This standard requires all recognized financial assets that are within the scope of IAS 39 "Financial Instruments: Recognition and Measurement" to be measured at either amortized cost or fair value. Specifically, debt investments that (i) are held within a business model whose objective is to collect the contractual cash flows and (ii) have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost. All other debt investments and equity investments are measured at fair value. The application of IFRS 9 might affect the classification and measurement of the Group's financial assets.

The Directors of the Company anticipate that the application of the other new and revised standards, amendments or interpretations will have no material impact on the results and the financial position of the Group.

3. SEGMENT INFORMATION

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the Group's chief operating decision maker in order to allocate resources to the segment and to assess its performance. The chief operating decision maker of the Group has been identified as the Chief Executive Officer ("CEO").

The Group determines its operating segments based on the internal reports reviewed by the CEO that are used to make strategic decisions.

An analysis of the Group's revenue and results by operating segments is as follows:

	1.1.2010 to 30.6.2010 *RMB'000* **(Unaudited)**	1.1.2009 to 30.6.2009 *RMB'000* (Unaudited)

Pursuant to the relevant laws and regulations in PRC, certain PRC subsidiaries are entitled to exemption from PRC income tax for the two years commencing from their first profit making year of operation and thereafter, these PRC subsidiaries will be entitled to a 50% relief from PRC income tax for the following three years ("Tax Holiday"). The Tax Holiday will expire gradually up to 2012.

No deferred tax liability has been recognized in respect of temporary differences associated with undistributed earnings of subsidiaries because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

6. DIVIDENDS

During the period, a final dividend for the year ended 31st December, 2009 of HK15.5 cents (2008 final dividend: HK10.9 cents) per share was already paid to shareholders.

The Directors resolved to declare an interim dividend of HK14.2 cents per share (2009 interim dividend: HK7.2 cents) which will be paid to the shareholders of the Company.

7. EARNINGS PER SHARE

The calculation of the basic earnings per share for the six months ended 30th June, 2010 is based on the profit for the period attributable to owners of the Company of RMB382,344,000 (for the six months ended 30th June, 2009: RMB193,825,000) and on the 1,228,000,000 (for the six months ended 30th June, 2009: 1,228,000,000) number of shares in issue during the period.

8. ADDITIONS TO PROPERTY, PLANT AND EQUIPMENT

During the period, the Group made additions to property, plant and equipment of approximately RMB170 million (for the six months ended 30th June, 2009: RMB100 million) on acquisition of property, plant and equipment, including transfers from deposits of approximately RMB30 million (for the six months ended 30th June, 2009: RMB56 million).

9. INTEREST IN ASSOCIATES

In June 2010, the Group acquired a 31.95% equity interest in a private company incorporated in Denmark and a 39.15% equity interest in a private company incorporated in the Cayman Islands, for a total consideration of RMB75,264,000. The associates are engaged in wafer-lever glass molding and the design and manufacture of Xenon-based flash lamp and flash modules used in consumer camera photography.

10. TRADE RECEIVABLES

Payment terms with customers are mainly on credit. Invoices are normally payable from 45 days to 120 days of issuance. The Group may accept bank acceptance bills with maturities ranging from 30 days to 180 days at the end of the credit terms in lieu of payment. The following is an aged analysis of trade receivables at the end of reporting period, net of allowance for doubtful debts:

	30.6.2010 ***RMB'000*** **(Unaudited)**	31.12.2009 *RMB'000* (Audited)

Overdue over 180 days	**1,367**	1,471
	706,610	644,404

11. FOREIGN CURRENCY FORWARD CONTRACTS

The Group entered into a number of foreign currency forward contracts ("Forward Contracts") with certain banks to: sell Euro47 million for United States dollar ("US$") at pre-determined rates ranging from US$1.300 to US$1.500 for Euro1. The Forward Contracts will be settled at various dates up until May 2011, provided that the spot rate does not fall below an agreed rate (the "Knock-Out Rate"). At any time prior to maturity of the Forward Contracts, if the spot rate falls below the Knock-Out Rate, the Forward Contracts will be terminated.

In addition, the Group entered into certain Forward Contracts with banks to: buy US$10 million for RMB at pre-determined rates ranging from RMB6.6253 to RMB6.7605 for US$1; and sell US$10 million for RMB at pre-determined rates ranging from RMB6.7220 to RMB6.8060 for US$1.

The Forward Contracts are not designated and effective as a hedging instrument. Therefore, the fair value gains or losses are recognized in profit or loss in the period in which they arise. At 30th June, 2010, the fair value of the Forward Contracts are determined by the respective issuing banks with reference to forward rates.

12. TRADE PAYABLES

The following is an aged analysis of trade payables at the end of reporting period:

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW

AAC is one of the world's leading technology total solution provider in miniature acoustic components. Adopting a vertically integration approach, our Company designs, manufactures and distributes a comprehensive suite of receivers, speakers, speaker modules, multi-function devices, microphones, transducers and headsets for use in mobile handsets, game consoles, notebook computers and other consumer electronics devices such as electronic book-readers, MP3 players and MP4 players.

Along with continuous development of in-house intellectual property, we have been strengthening our technology portfolio through mergers and acquisitions investments. During the first half of 2010, we have made two other strategic investments. The first investment is Kaleido Technology ApS ("Kaleido"), an industry-leader in wafer-level glass molding technology and the second one is a joint venture company, Xenon Technologies (Cayman) Limited ("Xenon Technologies"), a market leader in the design and manufacture of Xenon-based flash lamp and flash modules used in consumer camera photography.

Our management team is committed to seeking appropriate investment targets globally for companies and technologies that further broaden and strengthen the Company's existing technology base in acoustic and other micro-components solutions segments.

MARKET REVIEW

The worldwide economy continued to improve in the first half of 2010 with a notable recovery continuing from the latter half of 2009. We reported solid results for the first quarter having increased business with our existing customers. In addition, we continue to acquire international well-known brands to our existing customer portfolio. Our market share has increased within the mobile handset industry, particularly in the smart phone segment. The Company delivered and sustained healthy financial performance and strong revenue growth during the first half of 2010.

In order to diversify risks and maximize our potential, the Company expanded its market reach to include areas other than acoustic components solutions and mobile handset industry. Our new microphone and vibrator components have been successfully adopted by our major mobile handset customers. Our solutions and markets continue to expand to notebooks, personal navigation devices, digital cameras and camcorders, MP3 and MP4 players, eBooks and LED backlight LCD TVs.

The Company remains committed to advance our leadership in technology, and the development of in-house intellectual property. In the first half of 2010, we have successfully obtained 75 additional patents bringing our total portfolio of 289 patents, and we filed another 128 patents pending, which brings to 366 patents pending by the end of the first half of 2010.

FINANCIAL REVIEW

We continued to gain growth momentum after starting off with the seasonality pattern at the beginning of 2010. Compared to the corresponding period of previous year, the Group delivered strong growth. Our revenue for the six months ended 30th June, 2010 amounted to RMB1,333.9 million, representing an increase of 61.5% from RMB826.1 million for the corresponding period of previous year. Gross profit amounted to RMB588.2 million, representing an increase of 69.8% from RMB346.5 million for the corresponding period of 2009. Profit attributable to owners of the Company amounted to RMB382.3 million, representing an increase of 97.3% from RMB193.8 million for the corresponding period of 2009. Basic earnings per share amounted to RMB31.14 cents, representing an increase of 97.3 % from RMB15.78 cents for the corresponding period of 2009.

GEARING RATIO

The gearing ratio of the Group, computed by dividing the short-term bank loans by the total assets, as at 30th June, 2010 was 7.8% compared with 5.0% as at 30th June, 2009.

INDEBTEDNESS

As at 30th June, 2010, the Group had RMB374.0 million of short-term bank loans compared with RMB187.1 million as at 31st December, 2009.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 30th June, 2010, the Group had RMB1,855.2 million in cash and cash equivalents. In addition, the Group had restricted short-term bank deposits of RMB13.7 million. The Group had no long-term debt as at 30th June, 2010. The management believes the Group's current cash and cash equivalents, together with available credit facilities and expected cash flow from operations, will be sufficient to satisfy the current operational requirements capital of the Group.

FOREIGN EXCHANGE

The majority of the Group's investments, sales, purchases and operating expenses were denominated in RMB, US dollars, Japanese yen, Hong Kong dollars and Euro. The Board believes that the Group has been and will continue to be exposed to foreign currency exchange risks. The Group does not have a formal hedging policy. In the past and during the first half of 2010, in view of the Group's investments, our management team has entered into foreign currency contracts to minimise the effect of exchange rate fluctuations between Euro and the US dollars. Management will continue to closely monitor such risks and hedge against significant foreign currency exposure when appropriate.

CHARGES ON GROUP ASSETS

As at 30th June, 2010 and 30th June, 2009, the Group has no asset under charge to any financial institution.

MATERIAL ACQUISITIONS OR DISPOSALS OF SUBSIDIARIES AND ASSOCIATED COMPANIES

During the period, the Group acquired a 31.95% equity interest in Kaleido, a private company incorporated in Denmark and invested in a 39.15% of share capital in Xenon Technologies, a private company incorporated in the Cayman Islands, for a total consideration of RMB75,264,000.

Other than as disclosed above, the Group had no material acquisition or disposal of any subsidiaries and associated companies for the six months ended 30th June, 2010.

INVESTMENTS IN TECHNOLOGY AND NEW PRODUCTS

During the first half of 2010, we have made two strategic investments in technology and new products, which are disclosed as material acquisitions of associated company. The first investment is a strategic initial 31.95% equity investment in Kaleido, a Danish wafer-level glass molding technological company, which designs and manufactures ultra-precise micro-optics products of displays and imaging lenses. Its proprietary precision micro-milling and wafer-glass molding technologies provide highly cost-effective manufacturing of all-glass aspheric lenses, ideal for wafer-scale integration and is widely applicable in micro-optical applications. The second investment, completed in June 2010, is a 39.15% equity in Xenon Technologies, a joint venture company which designs and manufactures Xenon-based flash lamp and flash modules that are widely used in consumer camera photography. Both investments and their growth potential will be beneficial to the Group's capability into providing miniature components in the optics solutions, an extension to our leading position in the acoustic segment.

Our investment in LTCC technology continues to make good progress in offering product solutions such as the Piezo ceramic speaker, haptics vibrator components, and such RF key components as ceramic chip antenna, filter, diplexer and substrate for wireless communication. The Group is working closely with Heptagon Oy, the investment in WLO lens technology on developing reflowable fine-structure free-form/aspheric micro-optics solutions.

Our focus on MEMS technology, the design and packaging of MEMS have delivered significant sales growth for the Group. We will continue our focus in technologies related to active noise-cancellation, sound projection, related digital processing methods, software development and imaging component technologies.

EMPLOYEE INFORMATION

As at 30th June, 2010, the Group employed 9,102 permanent employees. Employees of the Group are remunerated based on their individual performance, professional qualifications, experience in the industry and relevant market trends. The management regularly reviews the Group's remuneration policy and appraises the work performance of its staff.

Employee remuneration includes salaries, allowances, social insurance and mandatory pension fund. As required by the relevant regulations in the PRC, the Group participates in the social insurance schemes operated by the relevant local government authorities. The Group also participates in the mandatory pension fund and social insurance schemes for our employees in Hong Kong, Taiwan, Singapore, South Korea, USA, Japan and various countries in Europe.

PROSPECTS

We have achieved in creating a more diversified customer and market base for the Group and we are well-positioned for stronger growth. We have proved our capability of leveraging our strengths in research and development to quickly ramp up new product platforms to increase market share in existing customers and acquire new customers. We will continue to focus on making use of our fully automated and semi-automated manufacturing processes to realize a fully vertically-integrated production model for increasingly complex miniature technology components solutions. Looking ahead, we strive to achieve long term sustainable growth by advancing our integrated solution products and diversifying our market focus.

In addition to consolidating our leading position in the acoustic segment, we are addressing potential markets of other miniature technology components. For instance, the Group has begun to develop optical and haptics solutions utilizing disruptive technologies for use in next-generation components and modules. Ultimately, our goal is to become one of the world's leading micro components, accessories and total solution providers for manufacturers of all kinds of consumer electronic devices.
